COMMUNITY CARING CENTER

For many years my mother, Ann Kimlicka, has brought all of the donated food at the end of the season to the Community Caring Center and I'm sure many of you are grateful for her time, energy and compassion to share the food that Brinyites could not use up before leaving Briny. This year, I will be taking over for her and, once again, ask all of you to consider donating your non-perishable goods for a good cause. It would be much easier if you could bring your items to **G11, Ruthmary** and leave them on the table on the patio instead of dropping off at the office. Please check the expiration dates as expired items may not be donated. Also, items that have already been opened are not accepted at the center. The Community Caring Center appreciates you as there is definitely a need in the area. Thank you! Barbara Molina

COMMUNITY-WIDE FRIDAY NIGHTS BBQ

Tonight, April 20th - Join fellow residents at the Pool Cabana around 6:00 PM. Bring side dish to share with everyone, your own meat/main dish to cook on the grill, drinks, utensils and plates. Casual or Swim wear appropriate as many choose to swim during evening. IF not eating feel free to stop by for great socializing with your neighbors.

GARDEN CLUB UPDATE

Work continues in the Butterfly Garden. With the damage of Hurricane Irma we are taking the opportunity to improve the Garden to attract even more Butterflies. Currently we have seen the arrival of the Monarch Butterfly. Most recently we have added more Milk Weed as the host plant for the Monarch Butterfly. In addition, there is now a water feature that has been added in the Garden to help provide a better environment for a wide variety of Butterfly species. Additional changes and additions will continue through the middle to the end of next week. Visitors to the Garden are always welcome, however visitors should be aware that a butterfly Garden is not conducive for pets. various plants and reptiles are toxic. In addition, the Garden Club has planted drought tolerant succulents and plants in the Urns at the entrances and exits of Ruthmary and Cordova. These urns have been empty for sometime now and are a very visual part of Briny Breezes being located on A1A. The Garden Club will maintain these concrete urns year-round.

Thanks for all those that have been so helpful in assisting within the Garden and with the pots. Your dedication and work efforts are greatly appreciated.

Watch for further updates on the Butterfly Garden and for next season's scheduled events.

BRINY BIBLE DISCUSSION

Study of Luke's Gospel will resume in September. Many residents who are returning north have requested that we suspend this study of until next winter. If you have any ideas for a topical study in the fall please contact Ken Gross or Jane Fox.

LIBRARY NEWS In memory of Alma Coir from her daughters Kathy Weier and Dory Hambacher: **The Fallen** by David Baldacci. Amos Decker is the Memory Man. In memory of Alma Coir from her grand-daughters: **I've Got My Eyes on You** by Mary Higgins Clark. The police immediately question Kerry's boyfriend, who—despite proclaiming his love for her—was seen arguing with Kerry that night. As neighbors and classmates grieve the loss of their friend, Kerry's 28-year-old sister Aline, a guidance counselor, searches for answers. She'll do anything to help the Detective Mike Wilson learn what really happened the night Kerry was killed.

FUTURES ADVISORY COMMITTEE The next meeting of the Board of Directors Futures advisory committee will be held at 10:00 AM on Monday April 30 in the West Clubroom. Digby Bridges, a well-known local architect will talk about the potential redevelopment of the A1A corridor, and self-storage as an income property. Some of the work that Digby has designed include the Briny Breezes beach clubhouse, the Ocean Ridge town hall, and the recent remake of the the beach front in Palm Beach. Time allowing, we will also have a recap of the recent field trip by four committee members to view a Green Dwellings prototype.

LEGACY FOUNTAIN UPDATE

After working on the beautification of our entrance for the last three years, the end is in sight. The centerpiece sailfish which has been paid for will be here for all to see in 2 weeks. More orders for bricks as well as donations have been coming in to complete the surround. That is so exciting for us. May we encourage those of you who have not placed your orders to do so now. The contractor has said it is more economical to do all the bricks at one time. This will save us some money. Everyone says they love Briny. Please show your love and appreciation for our great community by sending in your order to Ken Gross, N-203, with your check made out to Briny Landscape Club. There are 3 options of pavers available with prices from \$100 to \$245. Descriptive forms are in the mailroom for you to fill out. Donations of any amount supporting the Briny Legacy Fountain Project are greatly appreciated.

DIRECTORIES Copies of the 2018 Directory/Blue Book are still available (limited number). Please stop by O203 S Heron or N207 Flamingo to get your copy. \$10. A NEW DIRECTORY will be reprinted for 2019 season with new pictures of those who wish as well as updates to your address/phone numbers/email addresses that you submit to either us or preferably the office. There will be just one day for picture retakes next year sometime in January. Please keep an eye on the bugle as well as emails from the Directory CREW for exact time and date.

THIS SUNDAY, APRIL 22, IS EARTH DAY

Plastic pollution is one of the most important environmental problems that we face today. It impacts the environment and our health and wellbeing. From poisoning and injuring marine life, to the ubiquitous presence of plastics in our food, to disrupting human hormones and causing major life-threatening diseases and early puberty, the exponential growth of plastics is threatening our planet's survival. There is a growing body of evidence that decomposing plastics are creating serious global problems. We have all contributed to this problem – mostly unknowingly – and we must work to reduce and ultimately to End Plastic Pollution.

Earth Day 2018 is focused on mobilizing the world to End Plastic Pollution, including creating support for a global effort to eliminate single-use plastics along with global regulation for the disposal of plastics.

Earth Day Network, the organization that leads Earth Day worldwide, has developed a plastic pollution footprint reduction planner. This tool will help you determine how you are going to reduce your plastic pollution footprint and allow you to keep yourself accountable. The planner describes five Rs:

- reduce (reducing use of plastic products)
- refuse (refusing plastic products when offered)
- reuse (reusing product to keep them out of the waste stream)
- recycle (properly disposing of what plastic products you do use in the best way possible)
- remove (collecting existing plastic pollution from the natural environment and disposing of it in a more sustainable way)

For more information on steps we can each take, go to www.earthday.org.

Schools were closed and crops were ruined all the way to Homestead. Temperatures were in the 20's and \$91 million worth of fruits and vegetables were destroyed. Yes, snowflakes were seen falling in Briny Breezes. ~Helen Prudhon, Historical Preservation Committee
