Dear Briny,
Hard decisions are being made to keep the risk down and avoid having even one case of this Virus come to Briny Breezes.
The Pool is closed until further notice all the chairs removed from the pool deck as well as tables.
The OCH veranda/ porch have fewer chairs to help you keep your distances.
The **beach is CLOSED**, YES, all beaches even private beaches are closed as ordered by our Governor. We have found that people are disregarding "All Beaches Closed" and are finding ways to sneak into Briny and enjoy the Beach. The police will be asking you to leave.
The **office is closed but for the mail**. We have wiped down every inch of the mailroom, office and tabletops. We will bring your packages outside for you, or if you need, we will deliver them upon request.
The **South entrance and exit are closed** so everyone coming to the west side of the property can only enter and exit from at the light. DO NOT GO THE WRONG WAY NEXT TO THE POOL!
WEAR YOUR BADGES!
Clean up after yourselves in the Bathhouses. We will be cleaning as we always do, but you should use a towel or rag to open and close doors. Wear shower shoes and be considerate of others.
If at **Pelican or Sunset Point** keep your distances, social distancing is important! Please be considerate and if there is already a group using the tables, don't crowd in.
All public marinas have been closed and all fuel stations are now closed. The **Briny Marina** is open, and we ask you to not bring guests to the marina at this time until further notice.
We have not closed the Ocean Club house, the Chiselers or Hobby Clubs, but small groups MUST (10) people must be the limit. **Social Distance and clean up after use.**
The **Gym is limiting one person at a time** and requesting each member to wipe the machines down after each use.
The **Library is closed**, you may drop off your returns in the mailroom in the box supplied. Books that are in the closet for the Bazaar drop off are free to anyone that needs a good read. You may also place your books there for others to read.
The **Laundry room shall remain open** but please clean and wipe down machines after each use.
We are in a state of emergency. We must and will take the necessary steps and make important decisions and will follow what has been ordered by our local, state and Federal governments.
Life, Safety and the Health of our community and staff is the **MOST IMPORTANT** concern. We are not the police and enforcements are difficult at best. Be mindful and considerate of your neighbors. What we are experiencing right now during this health crisis is unprecedented. If in a year you all agree that I, your manager overreacted and NO ONE had the Virus, then I did a good job. My goal is to not allow this virus into this amazing community. Be patient & find understanding and together we will get through this.
In closing, we are working on putting together a BBC8 broadcast that can dispel rumor and speak facts. We will have call in questions and provide answers the best we can.
Please avoid close contact with the outside staff, they are very nervous and desire to stay healthy as well as keep you all healthy.

Thank you for your cooperation in these uncertain times.

Respectfully yours,
Donna Coates
General Manager
